PROFESSIONAL SUMMARY

IT professional with experience in web application development, IT support, and network troubleshooting. Experienced in developing web-based applications using PHP and Laravel, working with MySQL databases, and integrating APIs. Currently working as IT Support at Akhyar International Islamic School, contributing to the development and maintenance of school applications and network infrastructure. Currently pursuing a Bachelor's degree in Informatics Engineering at Universitas Indraprasta PGRI and seeking opportunities to further develop expertise in backend engineering and software development.

EDUCATION

SMK Galajuara
Computer and Network Engineering
2017 - 2020

Universitas Indraprasta PGRI
Bachelor's Degree in Informatics Engineering — In Progress
2024 - Present

TECHNICAL SKILLS

- **Programming Languages :** PHP, JavaScript, Java (Blue J), NodeJs
- **Backend Development :** PHP Native, PHP OOP, Laravel, CodeIgniter, REST API, JWT Authentication
- **Database :** MySQL, PostgreSQL
- **Web Technologies :** HTML, CSS, Bootstrap, Jquery, AJAX/Fetch API, JSON
- **Computer Networking :** TCP/IP, Network Topology, MikroTik Configuration, Network Troubleshooting
- **Tools & Environment :** Git, GitHub, Composer, Postman, XAMPP, Ngrok, Linux (Basic Command-Line Operations)

SOFT SKILLS

- Problem Solving
- Teamwork & Collaboration
- Communication

WORK EXPERIENCE

IT SUPPORT & WEB DEVELOPER
Akhyar International Islamic School
February 2024 - Present

- Develop and maintain school web applications for Tuition Fee Management (SPP), Student Admissions (PPDB), Daily Activities using PHP Native.
- Design application workflows, define system requirements, and develop prototypes to support application planning.
- Troubleshoot application and IT infrastructure issues to support daily school operations.
- Configure and maintain school network infrastructure and troubleshoot application and IT-related issues.

STAFF IT - NOC LAYER 1
PT Integra Teknologi Informatika
March 2022 - June 2022

- Performed Layer 1 troubleshooting for local network and server connectivity issues.
- Assisted in identifying and resolving network-related technical problems.

JUNIOR WEB DEVELOPER
PT Rekayasa Sintak Indonesia
April 2021 - February 2022

- Developed a web-based inventory application for Politeknik META Industri Cikarang using Laravel and API integration.
- Developed a web-based personnel management application for BPIP using Laravel.
- Contributed to the development of a web-based DR SOAP e-commerce application.

WORK EXPERIENCE

HELP DESK NOC INTERN
PT Iforte Global Internet
December 2018 - March 2019

- Completed an internship supporting Help Desk and Network Operations Center activities.

PROJECT EXPERIENCE

MOBILE APPLICATION DEVELOPMENT - BACKEND ENGINEER
Personal Collaborative Project | In Development
February 2026 - Present

Technologies : PHP OOP, MySQL, JWT, REST API, ngrok

- Develop backend services for a mobile application using PHP OOP and MySQL
- Implement JWT-based authentication to support secure user authentication and API access.
- Develop REST API endpoints to enable communication between the backend and mobile application.
- Use ngrok to expose the local development server for API testing and frontend integration.
- Collaborate with a frontend developer using React and Expo to integrate backend services with the mobile application.

CERTIFICATION & TRAINING

- Junior Web Developer Training — BPPTIK, Ministry of Communication and Informatics of Indonesia
- Dicoding Training — Back-End Development Fundamentals, JavaScript, and Front-End Development
- Help Desk Internship Certificate — PT IFORTE GLOBAL INTERNET
- Computer Network Security Configuration Training — PT Bakrie Pipe Industries
